

April 2022

Dear stakeholder,

Notice that East Riding of Yorkshire Council has made an Enhanced Partnership Plan and Scheme

This is a notice to confirm that East Riding of Yorkshire Council has made an Enhanced (Bus) Partnership (EP) Plan and Scheme.

An EP is a legal arrangement between a local transport authority and all qualifying local operators to work together to improve local bus services. The EP Plan and Scheme work towards delivering the East Riding of Yorkshire Council's Bus Service Improvement Plan (BSIP) which set out a vision for improving bus services. It should be noted that many elements of the proposed Plan and Scheme are subject to the availability of new Government funding and are unlikely to be deliverable if this is not forthcoming.

The East Riding of Yorkshire Council would like to thank all stakeholders for their contributions to date through the development of this EP Plan and Scheme. We look forward to continuing to work with you in this spirit to support the ongoing sustainability of the East Riding's bus network.

Yours faithfully,
Colin Walker, Transportation Services Group Manager
